Satsuma Pharmaceuticals to Present at Needham & Company 18th Annual Healthcare Conference

SOUTH SAN FRANCISCO, Calif., April 1, 2019 /PRNewswire/ -- Satsuma Pharmaceuticals, Inc. ("Satsuma" or "the Company") today announced that John Kollins, the Company's President and Chief Executive Officer, will provide a corporate overview at the Needham & Company 18th Annual Healthcare Conference taking place on April 9 – 10, 2019 in New York, NY.

The Satsuma Pharmaceuticals presentation is scheduled for Wednesday, April 10 at 9:40 am Eastern Time.

About Satsuma Pharmaceuticals

Satsuma Pharmaceuticals is a biopharmaceutical company focused on developing STS101 as an important and differentiated therapeutic option for the acute treatment of migraine. STS101 is a novel and proprietary investigational drug-device combination product specifically designed to enable intranasal administration of the anti-migraine drug, dihydroergotamine (DHE), with a pharmacokinetic profile optimized to provide consistent and robust clinical efficacy. In developing STS101, Satsuma has applied proprietary nasal drug delivery, dry-powder formulation, and engineered drug particle technologies to create a compact, simple-to-use, self-administered, and non-injectable DHE product. The Company believes STS101 will be an attractive migraine treatment option for many patients and may enable a larger number of people with migraines to realize the long-recognized therapeutic benefits of DHE therapy. STS101 has undergone extensive pre-clinical optimization and recently completed a Phase 1 clinical trial. Satsuma plans to initiate a randomized, double-blind, placebo-controlled Phase 3 clinical trial in the third quarter of 2019 to evaluate the efficacy and safety of STS101 as an acute treatment for migraine.

Satsuma is headquartered in South San Francisco, California with operations in both California and Research Triangle Park, North Carolina. For further information, please visit www.satsumarx.com.
